

PLATO+

ACADEMIC ENRICHMENT

At Plato Academy we believe **every child is gifted** and it is our job as educators to help children **identify, nurture, and celebrate** their **unique gifts**.

Plato+ is an academic enrichment program designed by educators to help our students find and restore their gifts.

Visionary Academic Enrichment Opportunity

Plato+ **reimagines** the academic learning provided during school hours

"The education my son is getting is **far beyond** what his peers are receiving at other schools. If I could give them 10 stars I would!" -Plato Academy Parent

Enrich your child's education with the excellent Plato Academy care and support you already know and respect.

"School should be a place where students feel **empowered** and that's why I teach at Plato Academy." -Plato Academy Teacher

Plato+ Academic Enrichment Curriculum

Plato+ has math, science, literacy and history each day, as well as a rotating theme each week. There is also a social and emotional learning component where children learn how to better understand and help themselves as well as others. **Each child will receive a personalized intake assesment to identify their learning style, personal and career ambitions and academic strengths.** This elite after-school option for kids who want to explore advanced academics can raise math, literacy, and critical thinking performance. Plato+ builds soft skills in a risk-free, fun way. If your child's mind could ask for an after-school snack, it

would be begging for Plato+!

Topics we cover throughout each day:

- ELA
- Social Studies
- Greek
- Math
- Science
- Social Emotional

Plato+ is a carefully designed after school enrichment opportunity for only Plato students that has been designed by Sandy Bean, an expert in the field of Gifted instruction. Sandy has taught middle school language arts, elementary science, math, and language arts, and gifted pull-out classes as the intervention specialist. She holds an undergraduate degree in middle childhood education science and language arts, master's degrees in curriculum and instruction and creative writing, and a gifted endorsement from the University of Cincinnati in Cincinnati, Ohio. Additionally, she has spoken nationally on topics relating to differentiation and assessment, and has designed and executed full gifted programming at the middle school level.

Weekly Themes

Plato+ is structured around engaging weekly themes to help kids build authentic, multi-disciplinary connections between skills and the world around them!

Themes may include...

Sweets and Treats where we will use sugar and slime to explore

Time Travel

when we will focus on different eras from ancient times to what may come in the future

Outdoor Fun to watch things grow and have our own Plato Plus Olympics

SPY SCHOOL where kids will play with secret codes and build character
